- **Sprint Plan Review**
  - o Reviewed our Sprint Plan and noted that Sprint 1 is relatively small.
  - o Confirmed that all team members understand the scope of the sprint.
- **Database UML and Structure Discussion**
  - o Finalized the database structure and confirmed table relationships.
  - o Reviewed the following database schema:
    - Users, Sessions, Categories, User Categories, Events, Wishlists, Members, Items, Contributions.
  - o Ensured all necessary fields and relationships were properly implemented.
- **Assigning Tasks for Web Application Pages**
  - o Each member was assigned a specific page to design:
    - Anthony: Sign-in and profile page
    - Justin: Landing page
    - Geoff: Wishlist page
    - Nick: Backend development
    - Stephen: List of Wishlist and Events page
- **Review of Competitor Websites**
  - o Analyzed GoWish.com and other similar platforms.
  - o Discussed features we liked and potential improvements for Wishify.
  - o Team members presented sketches and initial ideas for their assigned pages.

- **Next Steps:**
  - Each team member will design their assigned webpage based on their understanding.
  - Schedule follow-up meetings to review progress and provide feedback.
  - Nick to set up backend infrastructure and ensure database integration.
- **Tools and Resources:**
  - Jira for task management and sprint tracking.
  - GitHub for version control and collaborative development.
  - Discord for daily communication and updates.
